know how

All solicitors have to cope with changing times. If you want to know how to deal with and come out of this economic 'mess' with a good strong profitable business, this is the course for you. You can rely on our specialist industry knowledge to help you adapt and grow.

Come and listen to our speakers commenting on the current climate, discussing ideas to help you develop your business without taking your eye off the ball.

Alison Johnston, from Dodd & Co, will explain how to steer your business out of recession. She will provide practical and effective management tools and tips which you can use to improve your firm's performance.

Mike Kirsopp, from Dodd & Co, will be explaining how to keep on the right side of the Solicitors Regulatory Authority (SRA). He will highlight some of the most common accounts rules breaches and how to avoid them. He will also explain

what to expect from and how to avoid an SRA inspection.

Mike Hall, from Ross Lloyd insurance brokers, will discuss the solicitors' Professional Indemnity insurance market: why the renewal season was so difficult last year; what to expect from the market in terms of insurers, terms and rates in 2010; simple steps to make the renewal process easier; and risk management procedures that your practice can put in place to help keep premiums down.

Finally, Faye Armstrong, from Dodd & Co, will be giving a brief update on key VAT issues for lawyers, as well as giving an update on any VAT developments announced in the June emergency budget.
