dodd&co
know how

With the change in government, it is anticipated that major changes will be made to existing tax rules.

You can rely on our specialist industry knowledge to help advise you through these changing times.

Come and listen to our speakers commenting on how the emergency budget affects you and your business.

Industry specialists Brett Bennett and Darren Moynan will be explaining the implications of the major changes in the budget, and advise how best to keep your business set up in the most tax efficient and profitable way.

They will also discuss existing issues within the industry, in particular the ongoing saga of 'false self employment'.

Finally, our VAT expert Faye Armstrong will be giving an update on key VAT issues for the construction industry, as well as giving an update on any VAT developments announced in the budget.

Seminar topics

Implications and planning in response to the emergency budget

General issues facing the industry

Speakers:
